

Umpiring availability

How to log your umpiring availability in Netball Connect.

1. Open the Netball connect app and make sure you are on the profile of the umpire (this is for umpires that do not have their own profile ie children registered under parents' profile). If you are an adult umpire, it will be your profile showing.
2. Click on the 3 dots down in the bottom right-hand corner and the screen below will show. (see pic 1)

pic 3

3. Click on the arrow next to “My Umpiring Availability”.
4. Select the week in the date box (pic 2)
5. Block out the times you are **UNAVAILABLE** to umpire, this will turn the squares red (see pic 3). You only need to mark your unavailability on Tuesday and Wednesday (you can leave all other days green)
6. Once you have blocked out the times you can not umpire, scroll up and hit save.

Handy hint: When scrolling, make sure you are scrolling on the white area next to the green boxes.

NOTE: Umpires will be allocated to their games each Thursday. Umpires need to accept or decline it on the app by Sunday night. If you are unavailable to fulfil your allocations, you need to contact your club umpire convenor to help find your replacement.
